MOLDINGS

Showplace offers extensive molding options, ranging from subtle and understated to elegant and ornate. Specify moldings in a wood and finish to match your cabinets, or opt for a contrasting look. You can also stack or combine your moldings. You'll find base moldings for a furniture-like floor transition, as well as special under-cabinet moldings to finish off wall cabinets. What is shown here too is just a sampling. To see the full range, talk to your Showplace designer.

RANGE HOODS

Showplace wood range hoods and mantel range hoods are built to order, and will precisely fit your space. Offered in a versatile array of styles, in all woods and finishes, these works of art can really set your kitchen creation apart. Each one is handcrafted and can be finished to match or contrast the look you want.

Our range hoods incorporate top-quality Vent-A-Hood ventilation and lighting, so their day-to-day use matches their distinctive and lasting beauty. Trust our experts to bring you the best in quality, style, and functionality.

Stainless steel range hoods by Vent-A-Hood are offered in five distinct styles. Talk to your Showplace designer to learn about the variety of options open to you.

ISLANDS AND ISLAND END CAPS

A kitchen island adds more than visual appeal to your home. A well-designed island adds useful counter space along with additional storage and display opportunities.

Showplace islands make adding all of these benefits simple. Start with one of our pre-designed islands, or create your own. As with almost all of our products, you can choose your wood, door style, and finish options. Design your space to meet your needs.

MURPHY BEDS

Murphy Wall-Beds from Showplace can be completely customized in your choice of wood, style and finish. You can add display or storage spaces as shown here, and dress it up as much or as little as you please. Sized to precisely fit your space, our wall-bed cabinetry has top-quality construction backed by a limited lifetime warranty.

Unlike sofa beds and futons, Murphy beds don't use a folding mattress so there are no bars or lumps to sleep on. Use any queen mattress up to 11" thick for a comfortable night's sleep. The folding support leg is angled to prevent stubbed toes, and the powder-coated aluminum mechanism is lightweight, rated to support up to 2000 pounds.

OPENING DRAWERS/DOORS

Doors are such a part of life, we often take them for granted. Not at Showplace. There are so many options worth opening. Metal frame doors with your choice of glass and finish. Horizontal and bifold doors for visual appeal and function. And complete a uniform look by applying cabinet doors to appliance fronts.
